

Wedge-Mill Tool Inc.

Cutting Tool Hardware Specialty Tooling

Registered
to AS9100
(with ISO 9001)

Registered
to AS9100
(with ISO 9001)

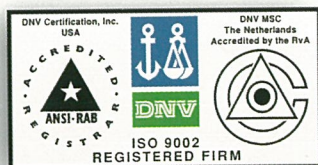

**Becoming ISO 9002 Certified
was just another step in our
history of making quality
and customer service our
highest priority.**

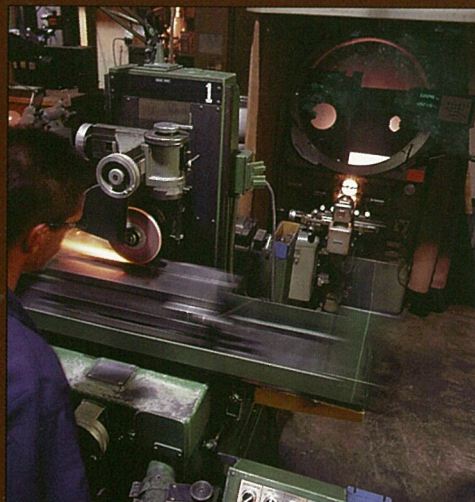

Quality

**Our continuous inspection
procedures, starting with
raw materials and extending
through post-production,
ensure that only the finest
products leave our facility.**

At Wedge-Mill Tool, quality is more than just a goal to be achieved – it's a company-wide mindset and our commitment to excellence. With us, quality is engineered into every process and carried out through each operation.

Certified to ISO 9002 standards in September of 1996, Wedge-Mill Tool is no newcomer to the quality scene; rather, we are among the leaders in our industry. By utilizing an integrated, computerized system, we can ensure the smooth processing and consistent production of orders. Our use of the latest manufacturing techniques promotes efficiency. As a result, we turn our promise to produce and deliver the highest quality parts and tooling at a competitive price into a reality.

A team-oriented manufacturing environment is the hallmark of Wedge-Mill Tool. We have a management group that is committed to investing in technology. Our sales/engineering team works closely with customers in developing efficient, cost-effective production processes. Finally, our staff of skilled craftsmen produce the parts to exact specifications for on-time delivery.

Wedge-Mill Tool Your interest in our customers doesn't end at delivery.

In fact, we take a proactive approach to serving our customers. We are constantly seeking

innovative production methods and ways to streamline our operation. These efforts have resulted in a continuing series of quality improvements, increased efficiency, and the ability to provide market-competitive pricing. Most important, we stand behind our products with service, support and a guarantee of quality.

At Wedge-Mill Tool, we make quality happen with:

- ISO 9002 Certification since 1996
- Integrated, computer-driven systems
- A commitment to capital investment in technology
- A team of skilled operators who are committed to exceeding customer expectations
- Proactive customer service ensuring customer support and satisfaction

**Delivering a quality product
with the flexibility to meet
just-in-time schedules at a
competitive price –**

**At Wedge-Mill Tool, we do it
every day.**

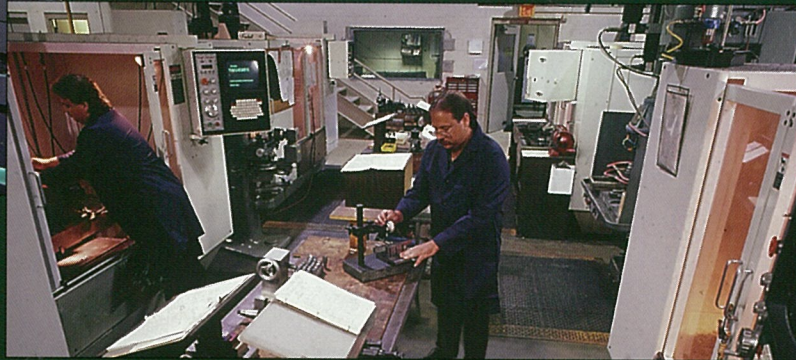

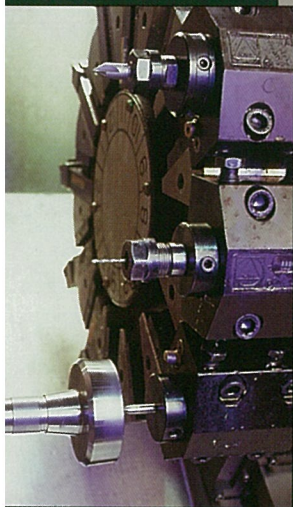

Capacity

**Whether your tooling
requirements demand the
precision of an advanced
CNC machining center, or the
skillful touch of an experi-
enced craftsman, Wedge-Mill
Tool is your clear choice.**

When it comes to investing in production capacity, we have demonstrated a ready willingness to upgrade and expand to meet our customers' demands. From equipping our facility with Okuma lathes and Fadal CNC machining centers with 4th and 5th axis capability to adding hot process black oxidizing equipment, we are determined to have the equipment we need to get the job done right. In addition, to guarantee delivery, we've done more than just invest in equipment. We also:

- inventory a variety of raw materials, including tool steels, high-speed steels, carbide and non-ferrous metals
- run two shifts per day
- constantly seek innovative production techniques and process improvements

Let Wedge-Mill Tool be your source for specialty tooling.

Precision Machining

CNC lathes with bar feeding

CNC machining centers

CNC milling with 4th and 5th axis capability

Grinding

Surface grinding

Chamfer grinding

Specialty Machining

Programmable production high-speed drilling and tapping

Horizontal milling

Induction brazing

Other Services

Hot black oxidizing

Blanket release programs

Just-in-time delivery

From replacement parts to specialty tooling, Wedge-Mill Tool is your source for high quality products at a competitive price.

We put our customer first by offering quality, delivery and pricing combined with:

- Flexible scheduling with quick turn-around capability
- A wide variety of in-stock raw materials
- An ongoing effort to achieve process improvement by investing in technology

As an integral supplier to the cutting tool industry, we understand the special needs of our customers and are committed to meeting those needs with the highest quality products.

Replacement Parts

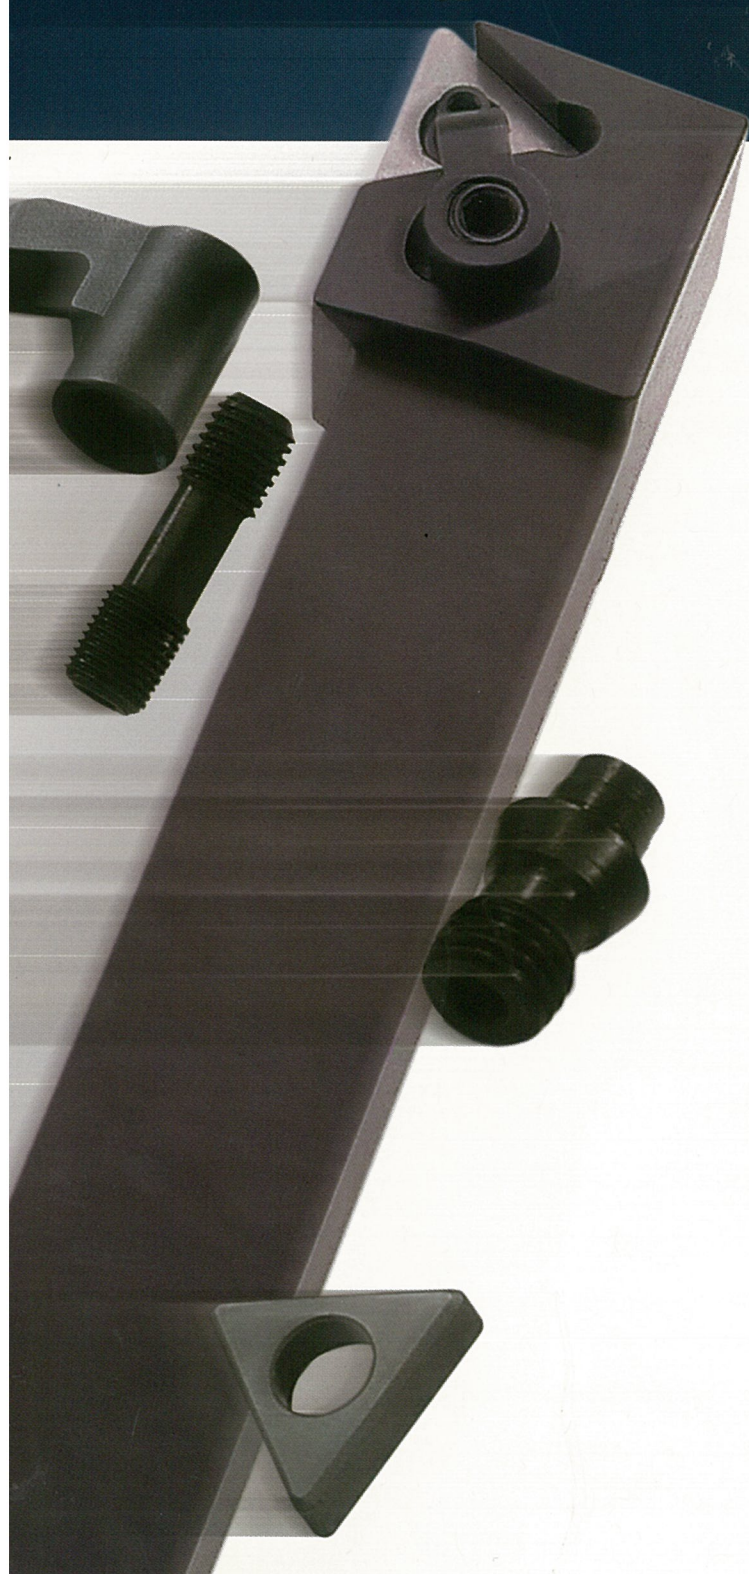

The Hardware Store for the Cutting Tool Industry.

For almost twenty years, Wedge-Mill Tool has built a reputation on fabricating the finest common hardware for the cutting tool industry. Sold and distributed across North America, we have become the preferred supplier to a number of O.E.M.s and end-users.

Careful attention to finish, material integrity and proper heat treatment go into each part. We combine our experience and unique manufacturing capabilities to produce replacement parts that meet or exceed customer specifications.

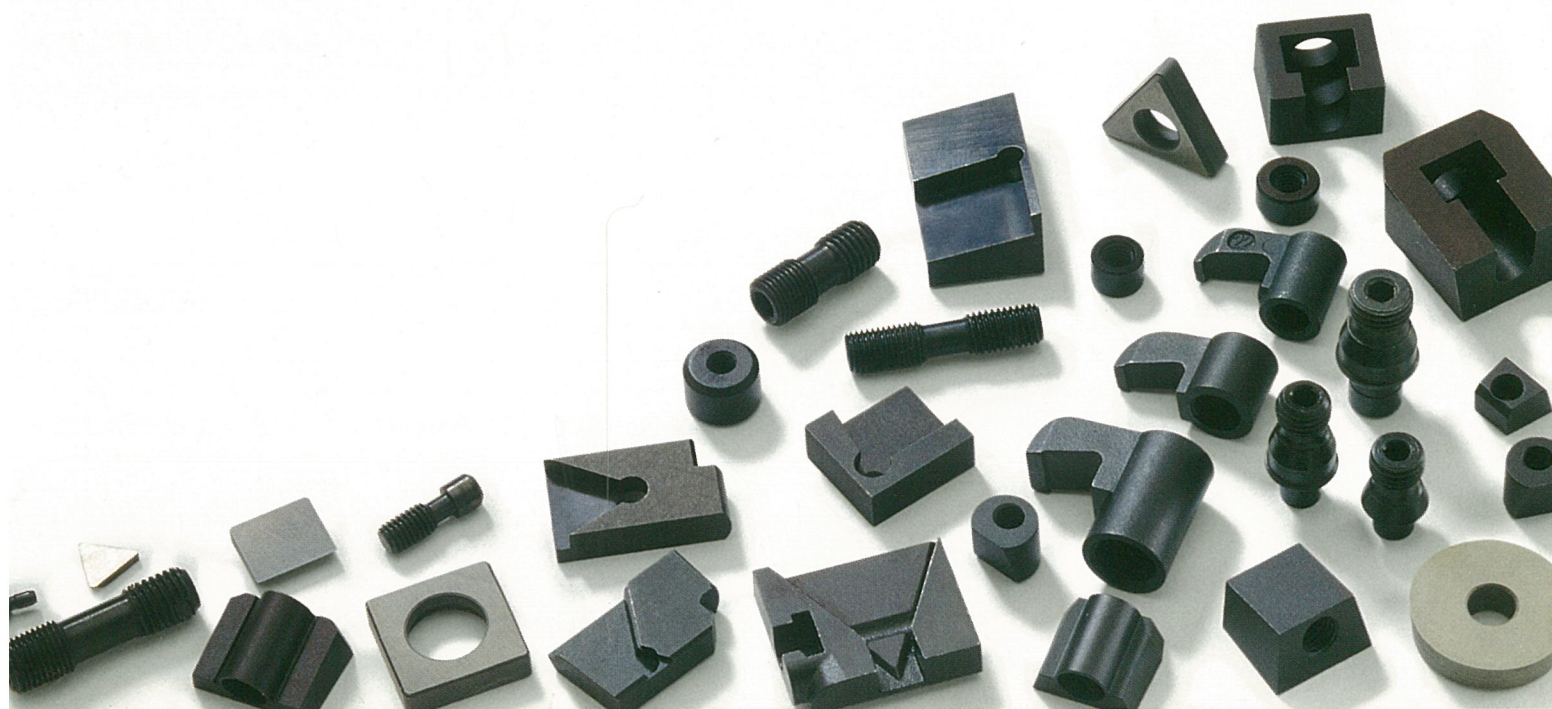

When you need replacement parts, you want a supplier you can depend on. At Wedge Mill Tool, we carry an extensive inventory of items manufactured to tough standards with quality you can count on.
